

YOUR PROGRESS

FULL NAME _____

Date: _____

Our goal is to give you the highest quality health care imaginable. In addition to the “objective” tests your Practitioner will evaluate, we would like to find out more about your “experience”. As we correct your health and you make appropriate lifestyle changes, we find that the majority of our clients not only “feel better” but also have some “unexpected improvements” in their overall health, wellbeing and quality of life!

Please put a cross where you think your health is and a circle where you would like it to be:

Please read carefully through this section and make notes about anything you feel your Practitioner needs to know:

Are there any things you would like to do that you are not able to do now, i.e. Sports, eat certain foods, pick up children/grandchildren, train more consistently, etc.?

.....

.....

.....

Have you been able to make any other positive changes in your lifestyle? (Changed your eating habits, added specific nutrients, less alcohol or drugs, begun or improved an exercise program or yoga, etc., have healthier thoughts, better strategies to deal with stress, eliminated or changed a stressful relationship[, meditation or breathing, eliminated an unhealthy habit, etc). Please give details:

.....

.....

.....

Please list supplements, exercises, stretches and/or recommendations you are currently doing and any questions:
